2024-present

## WORK EXPERIENCE

### Academic Intern | STARTECH ACADEMY

Date: [June 2023] - [August 2023]

Project: Full-stack Web Application for Delivery Management

- Technologies Used: Django, Google Maps API, Momo Payment API
- Designed and developed an efficient web application aimed at managing deliveries across all regions of Cameroon, focusing on the courier's geographical location.
- Implemented a courier tracking system integrated with the Google Maps API for real-time tracking.
- Integrated secure payment functionalities using the Momo Payment API.
- The project aimed to create job opportunities, facilitate business operations, and enhance customer activities within the community.
- Successfully completed a full-stack project from conception to deployment.
